

## Farvemærkede Rørhøg *Circus aeruginosus*

Fra Internettet på engelsk

### Rørhøg - *Circus aeruginosus*

#### Western Marsh Harrier - *Circus aeruginosus*

#### HOLLAND

One wingtag (on each wing) and each wingtag has two different colours (left and right side of the wingtag).

e-mail : [pipesg@yahoo.es](mailto:pipesg@yahoo.es)

note 1 : this system was used by Cor Dijkstra till 1995 in Netherlands.

#### HOLLAND

Wingtags (each wing 1 tag, each tag 2 colours (left and right), 4 different colours in total).

Dr. C. Dijkstra, Zoological Laboratory University Groningen, POBox 14, 9750 AA Haren, The Netherlands.

fax.: +31-50-36.35.205.

e-mail: [c.dijkstra@biol.rug.nl](mailto:c.dijkstra@biol.rug.nl)

note 1: no numbers or letters and each tag needs to have two colours (left and right side).

note 2: project runs during 1990-1995 in Lauwersmeer and in Flevoland.

#### SPANIEN (Extremadura)

One wingtag in each wing.

Naturalistas Extremeños (NATUREX),

e-mail : [naturex\\_ADD\\_telefonica.net](mailto:naturex_ADD_telefonica.net)

note 1 : wingtags are rounded with an inverted triangle in the middle. Different colours are used in the wingtag and the triangle.

note 2 : project runs in Extremadura (Southwest Spain) and is part of the Montagu's Harrier Conservation program of the Junta de Extremadura. Birds are wingtagging by ringers of NATUREX.

#### SPANIEN (Nordvest)

Wingtag.

e-mail : [steve.moyes@talk21.com](mailto:steve.moyes@talk21.com)

website : [www.roydennis.org/marsh%20harrier.htm](http://www.roydennis.org/marsh%20harrier.htm)

note 1 : during 2004 dark-blue tags on right wing were used.

Wingtag (on both wings) with an alphanumeric code (number or letter).

Carlos Zumalacárregui Martínez, Fundación Global Nature, Corro Postigo 1, SP- 34337 Fuentes de Nava -Palencia-Spain.

e-mail : [czuma@fundacionglobalnature.org](mailto:czuma@fundacionglobalnature.org)

website : <http://www.lifecanaldecastilla.org>

note 1 : during 2007 followed tags are put :

\* adults : blue wingtag in both wing with a numeric code in white.

\* pulli : blue wingtag in left wing and red wingtag in right wing with an alphanumeric code (number or letter) in white.

note 2 : the program started in 2007 and that year 22 birds are marked (1 adult and 22 pulls). All birds ringed in Palencia County (NW of Spain).

note 3 : the spanish NGO Fundación Global Nature is dedicated to wildlife conservation and research, with a special emphasis on species recovery projects and the restoration of natural ecosystems. We develop activities in different areas of Spain and has an international presence through cooperation projects and networks. In 2006 we started a LIFE-Naturaleza project for the restoration and management of small wetlands in the Canal de Castilla Special Protection Area. (LIFE06NAT/E/000213). The aim objective of the LIFE project is to recover and management that small wetlands that have been seriously disturbed and drained.

One of the monitoring actions (*Actions F: Overall project operation and monitoring*) of the LIFE project is the cr-ringing program of marsh harriers (*Circus aeruginosus*).

#### SPANIEN (Syds Spanien)

White ring with a alphanumeric code of 3 engraved characters.

Oficina de Anillamiento, Estación Biológica de Doñana, Apdo. Correos nr4, SP-21760  
 Matalascañas (Almonte), Huelva, Spain.  
 tel. : +34-959-44.00.32. ; fax.: +34-959-44.00.33  
 e-mail: [anillamiento@ebd.csic.es](mailto:anillamiento@ebd.csic.es)

### SPANIEN

Colour (1 or 2) wingtag(s) (1 or 2).  
 Parc Natural del delta de L'Ebre, 43580 Deltebre (Taragona), Spain.

### FRANKRIG

Wing tags (white) on wing with 1 black letter or number. (in 2006, 10 birds on Ile de Ré, France).

Wingtag (blue, fuchsia, yellow, orange, lime-green, red and white) on each wing. One black or white symbol (or no symbol) per wing-tag, different on each wing. (since 2007 in Ile de Ré and Marais Poitevin, France).

Bretagnolle Vincent, CEBC-CNRS, UPR 1934, 79360 Beauvoir sur Niort, France

e-mail : [breta.ADD@cebc.cnrs.fr](mailto:breta.ADD@cebc.cnrs.fr) and [sternalski.ADD@cebc.cnrs.fr](mailto:sternalski.ADD@cebc.cnrs.fr)

website : <http://www.busards.com/>

note 1 : ADD means @

note 2 : during 2007 some 70 birds were marked.

note 3 : three information-points are essential: symbol, colours of the symbol and background colour and this for each wing.

### FRANKRIG

Wingtag (yellow in '99 and light-green in '00) on left wing with 1 number.

Wingtag (white) on right wing with 1 letter.

Combination of 3 rings (on right tarsus) with on-top ring black.

1 ring (on left tarsus) (yellow in '99, light-green in '00) on-top and metal ring under.

G. Burneleau G., Ecole Mixte, 17370 Saint-Trojan-les-Bains, France.

e-mail: [gburneleau@aol.com](mailto:gburneleau@aol.com)

website : <http://burnelea.perso.cegetel.net:80/Harpayes/index.html>

### FRANKRIG (Corsica)

Combination of rings (based on a black ring)

Wingtags.

JP. Cantera, Corsica Bird Ringing Center,

e-mail: [corsica.birdring@libertysurf.fr](mailto:corsica.birdring@libertysurf.fr)

### TYSKLAND

Combination of 3 rings and 1 metal ring.

Black ring with white 3 alphanumeric (1 letter and 2 numbers) code (on right leg) and metal ring (on left leg).

Thomas Suckow, Ankerstrasse 1, D-39124 Magdeburg, Germany.

e-mail: [t.suckow@freenet.de](mailto:t.suckow@freenet.de) or Ulrich Koeppen, Hiddensee Bird Ringing Centre, An der Muehle 4, D-17493 Greifswald, Germany.

tel.: +49-38.34-83.09.31

fax.: +49-38.34-83.09.39.

e-mail: [beringung@mail.hnm.de](mailto:beringung@mail.hnm.de)

note 1: two rings per tarsus at the most.

note 2: birds are ringed in Eastern Germany, near Magdeburg, Sachsen-Anhalt [52°10'-50'N , 11°20'-45'E].

note 3: used colours are : white, yellow, red, green, blue.

note 4: in 2000 38 birds were ringed and in 2001 68 birds.

note 5: for the black ring the code is a letter and 2 numbers of which the letter is always up. Juvenile birds were ringed in NE Harzvorland, Magdeburger area, Germany. During 2003 some 48 birds were ringed.

**UNGARN**

Blue ring (on right leg) and a metal ring (on left leg) on tarsus. [East of Danube, Hungary].

Blue ring (on left leg) and a metal ring (on right leg) on tarsus. [West of Danube, Hungary].

Dr. László Tóth and Szabolcs Solt, St. Stephen University, Department of Wildlife Biology and Management, H-2103 Gödöllo, 1 Páter Károly Street, Hungary.

e-mail: [ltoth@ns.vvt.gau.hu](mailto:ltoth@ns.vvt.gau.hu)

**ITALIEN**

White ring with code (I + 3 digits).

Instituto Nazionale per la Fauna Selvatica, INFS, via Ca' Fornacetta 9, 40064 Ozzano Emilia BO - Italy.

e-mail: [infszumi@iperbole.bologna.it](mailto:infszumi@iperbole.bologna.it)

fax: +39-51-79.66.28.

note 1 : the project started during 1999 in NE Italy by Carlo Guzzon.

**FINLAND**

White, yellow or black ring (on leg) with code (letter C with 2 or 3 alphanumeric code).

White, yellow or black ring (on leg) with code (letter C with 2 or 3 alphanumeric code).

Ringing Centre, Finnish Museum of Natural History, Zoological Museum, P.O. Box 17, University of Helsinki, FIN-00014 Helsinki, Finland.

tel.: +358-9-191.28.847 or +358-9-191-28.848.

e-mail : [elmu\\_ren@cc.helsinki.fi](mailto:elmu_ren@cc.helsinki.fi)

website : <http://www.fmnh.helsinki.fi/birding>.

note 1: about 500 birds ringed in 1995-2008.

**Kazakhstan**

Wingtags (on left or right wing) with code (2 digit number).

Prof. E. Gavrilov, chief of Marking Animal Center, Ecological Fund "KazSAEF" , Kazakhstan.

e-mail : [gavr@zool2.academ.alma-ata.su](mailto:gavr@zool2.academ.alma-ata.su)

note 1: used colours are red, white or yellow.

note 2: the tag has been attached between the secondaries and tertials or between the first-third secondaries.

note 3: birds were tagged at the autumn migration '98 in southern (Chokpak Pass, foothills of the Anarchay mountain) or eastern (Sugaty valley, Zaisan-hollow) of Kazakhstan.

note 4: 3 birds have been tagged.
