Oversigt over farvemærkning af Vandrefalk (*Falco peregrinus*) i Europa

Place	Right Leg	Left Leg	Other
Netherlands	Orange	metal	alphanumeric code, 20 mm high
Belgium	white	metal	alphanumeric code, 20 mm high
Baden-Württemberg (SW Germany)	same colour on both leg, change annually		without code, 10 mm high
North and East Germany	black		hacked
	metal (15 mm high)	red (10 mm high)	from natural brood - on rock
	metal (15 mm high)	yellow (10 mm)	from natural brood - on building
	metal (15 mm high)	green (10 mm)	from natural brood - in tree-nest
North Rhein - Westfalen	metal (10 mm high)	metal (10 mm high)	From natural brood - on building. From 2006: 15 mm high alphanumeric metal ring on left leg (until this year uncoded rings were used)
	red	metal (10 mm high)	from natural brood - on rock
Poland	yellow	black	hacked or from natural brood fledged falcons in cities - yellow coloured ornithological ring + black ring with white alphanumeric code (no info about on which leg they put the colour and the orn.ring)
	green	black	hacked or from natural brood fledged falcons from tree nest - green coloured ornithological ring + black ring with white alphanumeric code (no info about on which leg they put the colour and the orn.ring)
	red	black	hacked or from natural brood fledged falcons on rock - red coloured ornithological ring + black ring with white alphanumeric code (no info about on which leg they put the colour and the orn.ring)
		blue	For wild Peregrines - since 2003 blue rings have been used instead of black, the coloured ornithological ring remains.
			For more details on the Polish project , see www.peregrinus.pl
Austria	No colour-ringing.		
Slovakia	No colour-ringing.		
Croatia	No colour-ringing.		
Romania	No colour-ringing.		
Serbia (and Montenegro)	No colour-ringing.		
Macedonia	No colour-ringing.
